EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jan Simpson on August 23, 2006.

The application has been amended as follows:

In the Specification:

The following two sentences have been inserted following paragraph [0044] on page 10:

---FIG. 6 is a diagram illustrating the structure of an additional filter element according to a first embodiment of the invention.

FIG. 7 is a diagram illustrating the structure of an additional filter element according to a second embodiment of the invention.---

In the Claims:

In line 2 of claim 10, "claim 9" has been changed to ---claim 1---.

2. The following is an examiner's statement of reasons for allowance: Claim 1 has been amended to include the allowable limitation of canceled claim 9 that a small adsorptive additional element at the rear side of the filter body is used, wherein the additional filter element

is adapted to produce a relatively small pressure drop and having an adsorption capacity at 25°C with an n-butane concentration of between 5 and 50% by volume of greater than 35 g of n-butane per liter. Claim 17 is allowable because the prior art fails to disclose the recited main filter and additional filter with the specified pore volumes. The outstanding indefiniteness rejections have been overcome and are withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
